Preserving Your Home:

Dirt and dust are the main culprits when it comes to wear and tear inside your home. Hardwood floors slowly deteriorate as dirt grinds at the surface. Unremoved razor-like dust destroys the fibers in your furniture and carpets. Using the Majestic, dirt cannot hide, therefore, it extends the life of your carpet and furniture.

NEW

C. Swift-Mate

Pick up dirt, lint, pet hair, and dust quickly and effortlessly. The electrostatic cloth works like a magnet to attract dust and other small particles while larger particles are removed with the combined suction and airflow of the Majestic.

Healthy Housekeeping Advice:

Keeping Clutter Down: Clutter collects dust and makes it harder to keep a clean home. Store your belongings in plastic or cardboard boxes instead of keeping them in piles. You can move the boxes to make cleaning easier.

A. Hose Holder

Extend the life of your Majestic's hose! This holder for your Majestic's hose screws easily into the wall of a closet or pantry. Provides a convenient place to store your hose safely. **Tip:** Never store your FILTERQUEEN Majestic with the hose attached to the Power Nozzle wand. It puts unnecessary strain on the hose and could cause it to eventually tear. Take a look at our wall mounted hose holder!

- #SHH

B. Medi-Cap

When emptying the dirt container or storing your FILTERQUEEN Majestic, place the Medi-cap onto the suction inlet, thus preventing dirt and dust from leaking into the air.
